Questions:

1. What season is your favorite?
2. What happens to plants in the spring?

Cloze Paragraph: The Bear and the Rabbit

Answer Key

There are four seasons in a year. They are spring, summer, fall, and winter. Each season lasts about three months. Spring is the season when new life begins. The weather becomes warmer.

Warm weather, rain, and light make plants grow. Some plants, which looked dead during the winter, grow again. Tulips are plants that come up every spring. Summer begins on June 20th for the people who live in the United States. June 20th is the longest day of the year for us. We have more sunlight on that day than any other day. Plants have to be watered more often in the summer.

Answers:

1. spring
2. months
3. weather
4. grow
5. again
6. begins
7. United
8. for
9. any
10. in
