

Gr 2 Theme 4 Story 2
Ants

Ant	hill	tun	col	un
Ger	nae	ing	al	bly

everywhere

almost

hardly

nearby

probably

together

Some anthills are huge and filled with tunnels. An ant colony
has lived under this tree for years. Each year
the ants dig new tunnels and make the anthill a little bigger.
Every ant has two long, wavy stalks on its head.
These are its antennae. They are like a nose and fingers all in one.
