

Gr. 1, Theme 3, Story 3
What a Trip!, Fluency

also	some	funny	trap	green	crab
color	like	brown	many	blue	let's

Let's go! We are going on a fun trip. We will get wet! We jump in! We will be looking in the sea. What will we find in here? Here is a funny fish! Look at its big fins. It also has big lips for a fish. We find a big blue fish. It likes to be in the sea grass. What is it looking at? Look! It's a brown crab! A crab can grab. Can we get a trap for the crab? What can the brown crab grab? The crab can grab a shell. Crack! Here's a green fish. It also has blue on it. This fish looks like it's eating. Big, big whales live in the sea. They can eat a lot! Many whales like to eat krill. Some fish change color. Look! Can you see the fish? What a fun trick! Some fish can prick. Do not grab it! It's not fun to get pricked. Many fish zig zag in the rocks. We drip and drip, but we had fun! What a trip!
